

DuPont™ Sontara® Multi-Purpose Shop Towels

DuPont™ Sontara™ Multi-Purpose Shop Towels address a broad range of cleaning needs.

Sometimes you need to aggressively scrub and remove dried-on grunge. Other times you need a soft and thirsty wiper for a delicate task. Either way, DuPont™ Sontara™ Multi-Purpose Shop Towels offer outstanding strength and absorbency to get the job done quickly without leaving behind a lot of lint.

Our textured shop towel traps and removes thick and gooey liquids (ink, oil, paint, resin, syrup), and is good for scrubbing away built-up contaminants without damaging the underlying surface the way abrasive pads can.

The smooth shop towel works great on surfaces like glass and is optimized for picking up low viscosity fluids. The closed “weave” of the smooth shop towel makes this product virtually lint-free, yet very strong both wet and dry.

FEATURES	BENEFITS	APPLICATIONS
Textured Shop Towel		
Textured “open weave”	Traps debris (like broken glass, grease, dirt). Gently scrubs away built-up contamination without damaging underlying stainless steel surface	Equipment, tool and facility maintenance. Food packaging, biotech, and pharmaceutical industries; biofilm removal; production line cleaning
Priced to be disposable	Minimize cross-contamination by throwing away used shop towels	Kosher and “allergen-free” production lines
Exceptional wet and dry strength	Longer lasting shop towels can save you money	Production area and lab operations; test equipment clean-up
Smooth Shop Towel		
Exceptional durability and solvent resistance	Lasts longer than ordinary shop towels	Machinery, tool and facility maintenance
Absorbs quickly	Ideal for preparing surfaces and cleaning up spills	Production, office, and break areas
Low-linting	Fewer fibers that can cause product defects	Contamination-sensitive production areas and laboratories

Both textured and smooth shop towels are made with proprietary DuPont fabrics that stand up to autoclaves, harsh solvents, boiling water, and just about any cleaning fluid you’ll find in the workplace.
